

THE ULTIMATE IN SHOWER TOILETS

A new take on form, function and comfort

HYGIENE WITH A NEW LIGHTNESS OF TOUCH

Hygiene begins with cleanliness and ends in well-being: The shower toilets by Villeroy & Boch combine innovative technology with a design which integrates harmoniously into high-quality bathroom settings - a veneer of simplicity that elegantly belies the high-end sophistication within. Supreo, Supreo Select or Tivo: Each model boasts a finely balanced blend of functionality, comfort and aesthetics. All needs and expectations are covered - from the full high-end experience to a deliberately more minimalist approach. Discover shower toilets that adapt to your life in a bathroom that combines modern design with pioneering technology.

SUPREO

THE ESSENCE OF COMFORT

Supreo sets new standards where others come up against their limits. The rear and front wash with HarmonicWave 2.0 provides particularly gentle yet thorough cleaning. The SupremeDry function features a pop-out, oscillating nozzle for particularly efficient and effective drying. Supreo also comes with reliable odour extraction and indirect lighting—for a discreet ambient light effect and to help you find your way around in the dark. All functions can be controlled conveniently via remote control or app. Automatic nozzle rinsing, UV disinfection of nozzle and water and an integrated descaling function ensure a lasting high standard of hygiene. For particularly expressive bathroom design, Supreo is available in matt Pure Black in addition to glossy Alpine White.

SUPREO SELECT

TURNING VISIONS INTO HANDS-ON FEATURES

Supreo Select stands for the ultimate in shower toilet comfort by Villeroy & Boch. Comfort, functionality, hygiene – it sets the benchmark on all fronts: In addition to those functions featured on Supreo, the Select models offer even more comfort. Supreo Select sports 5-level seat heating with an intelligent Eco-Mode. An integrated automatic system opens and closes the toilet lid by sensor control. Supreo Select also attends to flushing after use – automatically and as required. Everything is operated conveniently by app or remote control. In glossy Alpine White or matt Pure Black – Supreo Select also blends harmoniously into the bathroom's colour scheme. This perfect fusion of high-end design and intelligent technology fashions an experience which redefines comfort each and every day.

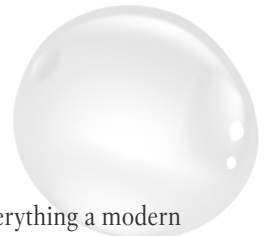

TIVO

QUINTESSENTIAL COMFORT

Tivo focuses on the essentials to offer everything a modern shower toilet needs. With rear and front wash, four spray modes, dryer, heated seat and odour extraction, it tangibly enhances comfort in everyday use. Features such as a night light, Eco-Mode for the seat heating and intuitive operation via remote control, Tivo is a smart solution in particular for those who value practical functions and signature Villeroy & Boch quality. Automatic cleaning of the nozzle, a descaling function and sensor-controlled user detection round off the technical merits. Tivo is a dependable everyday companion - well-conceived, comfortable and convenient, without hogging the limelight.
